7 Vice Chancellor’s Report (Agenda Item 8)

Council considered the Vice-Chancellor’s report, dated 1 October 2013.

The Vice-Chancellor introduced his report highlighting the following:

NSS Results - Although results had been maintained, other institutions had improved at a faster rate. Weaker areas were to be improved upon. A small working group would be looking at where improvements could be made to University scores.

QS Rankings - There was slight slippage, but all UK universities had slipped slightly. It was vital to understand the effect of international student surveys in the rankings. Although Southampton scored well on objective issues, reputation needed improvement.

MOOC - 6,637 students had signed up for the first MOOC.

Government Laboratory Sell-off - It was noted that the Government were to be selling off laboratories in Teddington. These could be an asset to the University if acquired. The bidding process is not in place as the University would like currently, and it was understood no bids had been made. If conditions surrounding the bid process were to improve, the University may consider a bid.

Student Recruitment - always a large number of students looking to come to the University and more imaginative recruitment methods were being investigated.

Boldrewood - Shell wished to come into partnership using the Boldrewood site which was encouraging news as they were the second large oil company to do so.

Enactus - The Southampton team came second in the World Cup. It was suggested that they make a presentation to a future Council meeting.
Resolved To note the Vice-Chancellor’s report.

8 Amendment to Statutes (Agenda Item 9)

Council considered a report from the Registrar which set out the proposed change to the University Statutes to create the position of Associate Professor. This matter had been considered previously by Council and was presented for a second reading for endorsement prior to being sent to Privy Council for final approval.

RESOLVED that the proposed amendment to Statute 4, subsection 6 be approved by Special Resolution and be forwarded to the Privy Council as soon as possible.

9 Report from the President of the Students’ Union (Agenda Item 12)

Council considered a report by the President of the Student’s Union.

Mr Gilani introduced his report outlining the Welcome Project which helped new students settle in to life at the University. He added that the Union was helping to improve the National Student Survey scores and outlined 5 main areas:

- Academic Support (for feedback and assessment of students)
- Communication with Students (particularly from the Executive management side of the University)
- Spaces Development (the initiative will boost the student experience)
- Enterprise (bring flexibility to the curriculum and to seek volunteer placements)
- Communities (bring the student populations together such as post graduates who often stay distant)

Council also noted the Unions pride of the achievement of the ENACTUS team in the recent World Championships.

The Chair thanked Mr Gilani for his report and suggested that a future Council meeting be held in the Student’s Union with a presentation on their work including the ENACTUS team.
