We send you two short assignments to complete. If your first assignment submission is not adequate you will be provided with feedback and the opportunity to re-submit.

If you PASS the assignments we will check if you have included a placement request in your personal statement.

If there is a placement request we will contact you in May 2018 for your placement preferences. We will also invite you to attend our Placement Visit Day in June 2018.

During the Placement Visit Day in June 2018 you will take part in a small group task** and have an interview with representatives of our placement providers.

If you achieve at least satisfactory in all dimensions of the group selection task** and pass the interview you will be made an offer to study the two-year MSc Audiology (with clinical placement) programme with us and receive our NHS Scholarship*. We will confirm your placement location with you by August 2018.

If you do not achieve at least satisfactory in all dimensions of the group selection task and/or do not pass the interview you will be made an offer to study the one-year MSc Audiology programme with us.

* NHS scholarship: We offer audiology placement scholarships for UK/EU residents who start the programme from 2018-19; the number is limited only by our placement capacity. The scholarships are offered in support of the UK audiology workforce and consist of a reduction in the fee for the second year of the programme (the placement year) only; they cannot be used for the first year of the programme and cannot be taken as cash.

** Group Task: The group selection task is an activity in which a small group of applicants will discuss a professional or healthcare issue; you will be briefed about the task and shown the assessment criteria beforehand. On the day, you will be assessed on your professionalism, understanding of the important attributes and general requirements of a healthcare professional (including putting patients and families first), personal values related to healthcare work, communication skills and team-working skills. You will be independently scored by at least two members of the Admissions Team.
