Programme Overview

Brief outline of the programme
The programme can be studied Part Time (4096).

This programme is one of the most diverse music programmes in the UK, offering a high degree of flexibility and student choice. The programme covers a wide range of musical styles and traditions: from Western classical and world music, to jazz, pop and commercial styles. The programme includes a variety of topics in performance, composition, musicology and ethnomusicology, as well as options on the music business, music technology, music therapy and community music.

Studying on this programme will allow you to specialise in your chosen areas of musical activity, developed over the three years of the programme (four with the Year Abroad option), while also offering the opportunity to enhance your studies with free-electives or a Minor study in another discipline.
Your contact hours will vary depending on your module/option choices. Full information about contact hours is provided in individual module profiles.

Learning and teaching

In order to support the diverse curriculum and range of learning styles amongst students, a broad portfolio of learning and teaching methods are used. Many modules include lectures and tutor-led or student-led seminars, in order to provide the main teaching, delivering information, instruction in method and skills. Where appropriate, group projects and coaching, study visits, small group or individual tutorials and instrumental lessons provide additional methods which may replace or be in support of lectures and seminars, and generally reflect more personalised and/or practical activities. Group and individual presentations (including performing) are also used to help develop your transferrable and communication skills. A significant part of your studies will be spent on independent research and practice, rather than in teacher-lead activities, increasingly towards the latter part of your degree. Growing your abilities as an independent learner is a key aspect of your academic development. This independent work may include reading set texts, studying scores, instrumental practice, attending concerts, keeping a study diary, amongst other activities.

Increasingly the curriculum involves the use of IT system in support of teaching and learning, which can involve the use of electronic publications, online access to music collections, course materials available via the University's Virtual Learning Environment, discussion groups and blogs.

Assessment

A variety of assessments are used to enable you to demonstrate achievement of the intended learning outcomes. Formal examinations or performances, extended written submissions such as a dissertation or composition portfolio, essays, study diaries or blogs, in-class tests, shorter pieces of assessed coursework, individual and group presentations, and listening tests.

Special Features of the programme

The programme provides access to the Turner Sims Concert Hall, among the leading music venues on the South Coast. Turner Sims provides a professional-quality venue for student performances, and its varied concert series features world-famous touring musicians from every performance style. Free tickets are available to students for some concerts, and discounts for others.

Major departmental performance projects offer unparalleled opportunities for students to play alongside leading professionals - recent projects have featured Purcell's Dido and Aeneas, the premiere of Michael Finnissy's completion of Mozart's Requiem, and Porgy and Bess.

Please note: As a research-led University, we undertake a continuous review of our programmes to ensure quality enhancement and to manage our resources. As a result, this programme may be revised during a student's period of registration; however, any revision will be balanced against the requirement that the student should receive the educational service expected. Please read our Disclaimer to see why, when and how changes may be made to a student's programme.

Programmes and major changes to programmes are approved through the University's programme validation process which is described in the University's Quality handbook.

Specialist vocal and instrumental tuition for single and joint honors Music students taking performance modules is generally provided free at the point of delivery. When lessons happen away from Highfield Campus students are expected to cover the cost of travel to and from their lessons. Students are expected to cover the cost of travel to and from off-campus rehearsal, performance and music examination venues. Most of those we use are within walking distance of Highfield Campus.

Students taking instrumental lessons are expected to own and maintain their own instruments, maintenance including the cost of repairs and of replacement parts (new strings, drumheads etc.). Students are strongly advised to arrange insurance for their instruments, covering all the usual risks including theft from places of residence and from university storerooms. Storage space for instruments is available in Music Department storerooms. Dozens of students have access to them: it is not possible to guarantee security. The university will accept no responsibility for loss or damage to instruments left in storerooms. Students taking performance modules will be given keys to practice rooms and storerooms. Keys must be returned on or before graduation day. Students will be charged £10.00 per replacement key in the event of loss.

Jazz and pop students must buy and use their own ear protectors if asked to do so by a teacher.

Hartley Library holds a very large collection of sheet music which students can borrow free of charge. Students who want or are advised by teachers to buy their own music, perhaps in order to mark it up, will be expected to cover the cost themselves.

The Music Department has a large collection of keyboard instruments to which keyboard students are allowed free access. It owns a number of other instruments (piccolo trumpet, bass sax, basset horn etc.) which students can borrow on their teacher's recommendation. We do not charge for the use of them but do recommend that students make private insurance arrangements when taking them off campus, especially on tour. If not returned intact they must be replaced like for like at the student's expense or at their insurer's.

Students may wish to hire professional accompanists to play with them in performance exams. Accompanists charge varying levels of fee (rarely more than £60.00 per exam accompaniment, including prior rehearsal) and students are expected to pay the fees themselves.

Turner Sims -- the university concert hall -- makes 10 tickets for each of its own-promoted concerts available free of charge to Music on a first come, first served basis. (There are very rare exceptions: gala concerts intended to raise funds for Turner Sims for instance.) Monday and Friday lunchtime concerts in Turner Sims organised by the Music Department are free of charge both to Music students and to the wider public. External promoters hiring Turner Sims can charge what they like for admission to concerts.

Student-run performing arts societies such as the University of Southampton Symphony Orchestra, JazzManix and Showstoppers (there are many others which Music students might like to join) are free to set their own membership subscriptions. The Music Department does not contribute directly towards the cost of running these societies.

ACADEMIC MODULES

Very few Music lecturers insist that students purchase specific set texts. Copies of set texts are made available in Hartley Library, if necessary in the reference-only "course collection" or on short-term loan. Students may wish to own copies of recommended books but are free to choose which to buy and which to borrow.

Some lecturers prepare course handbooks for the modules they are teaching. These are generally made available free of charge to students taking the modules. For unusually bulky handbooks there may be a charge to pay -- never more than £10.00 per copy.

Music software packages are available for licensed use at designated university computer workstations free of charge to Music students. Students
who wish to install compatible software on their own computers will have to
cover the cost themselves.
Students using the university’s Follow Me print service will be charged per
page printed out, at rates listed here:
http://www.southampton.ac.uk/isolutions/students/printing-for-
students.page
Field trips are infrequent and almost always optional. When occasionally they
do happen students involved may be expected to cover travel costs and to pay
for admission to the venue(s) visited. Staff organizing trips make every effort
to keep costs to a minimum, negotiating group and student discounts
whenever possible. No one trip is likely to cost more than £20 total.
